Profile

Software Engineering student at JKUAT with nearly 2 years of experience in web development. Skilled in creating responsive, user-friendly websites and passionate about cloud computing and cybersecurity. I blend analytical problem-solving with creative UI design to build impactful digital solutions. Actively seeking opportunities to contribute and innovate.

Experience

PR Lead – Google Developer Student Clubs (GDSC) JKUAT Sep 2025–Present

- Led digital campaigns to enhance event participation and community engagement.
- Promoted workshops on cloud, AI, mobile development, cybersecurity, and web development.

Software Engineering Practice Remote Ongoing–2025

- Built AI-based fraud detection projects in competitive hackathons.
- Strengthened frontend, cloud, and problem-solving skills through practical projects.

Communication Coordinator – Taifa Teule Network Kiambu Sep–Nov 2024

- Designed posters and mobilized communities for impactful events.
- Coordinated financial literacy and first aid workshops for local members.

Projects & Achievements

- Developed a dynamic shoe e-commerce site with JavaScript-based filtering.
- Secured multiple wins at Africa's Talking Hackathons (2025).
- Selected for ALX ProDev FrontEnd Program (2025) for advanced training.

Education

Jomo Kenyatta University of Agriculture and Technology (JKUAT) 2023–2027

BSc Mathematics & Computer Science: Key Modules: Probability & Statistics, Data Structures, Databases, Machine Learning, Web Development, Cloud Computing

ALX Africa – Frontend Pro Web Development June 2025–Feb 2026 Advanced training in React, JavaScript, modern tools, and Professional Foundations.

Skills

Programming: HTML, CSS, JavaScript, React, Node.js, Git/GitHub, Vercel

Data & Cloud: Data Analytics, Probability & Statistics, AWS (Fundamentals), Cloud Concepts

Languages: English (Fluent), Kiswahili (Fluent)

Other: Cybersecurity (Fundamentals), UI/UX Design
